## Education

---

### The Islamia University of Bahawalpur

Bachelor of Science in Software Engineering

Bahawalpur, PK

## Experience

---

### Codesthinker

Frontend Engineer

Bahawalpur, PK

- Engineered high-performance user interfaces using Next.js and React, focusing on SSR and SSG optimization.
- Translated Figma designs into pixel-perfect, reusable components using Tailwind CSS and modern CSS patterns.
- Collaborated on GitHub by conducting code reviews, managing feature branches, and resolving merge conflicts.
- Automated production deployment workflows via Vercel and Netlify for seamless CI/CD delivery.

## Projects

---

### Elite Legal Services | *React, Tailwind CSS, Responsive Design*

- Professional platform connecting users with legal experts featuring consultation booking and service listings.

### Akoya Web App | *Next.js, Tailwind CSS, Modern UI*

- High-fidelity web application built with a focus on aesthetic design, smooth animations, and optimized performance.

### Government Services Marketplace | *React, Tailwind CSS, Platform*

- A comprehensive marketplace platform designed for efficient access and discovery of various government services.

### AI Dosari | *React, Tailwind CSS, AI Integration*

- AI-powered application providing intelligent automated solutions and streamlined process management.

### Charity Website | *Next.js, Context API, Donation UX*

- Non-profit platform featuring secure campaign tracking, donor management, and interactive impact visualizations.
